POLICY P001 | Policy and eligibility

Refund eligibility

Scope and rule

Customers may request a refund within 30 calendar days of purchase. The item must be unused, and a receipt is required.

Terms and conditions

• Customers may request a refund within 30 calendar days of purchase. The item must be unused, and a receipt is required.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P001
Rule	Customers may request a refund within 30 calendar days of purchase. The item must be unused, and a receipt is required.
Worked example	An unused bag purchased 12 days ago with a receipt qualifies for a refund request. A used bag does not qualify under this rule.

POLICY P001 | Procedure and case handling

Refund eligibility

Scope and rule

Customers may request a refund within 30 calendar days of purchase. The item must be unused, and a receipt is required.

Required procedure

Ask for the order number, purchase date, and item condition. Compare the request date with the purchase date before approving a return. Used items do not qualify for a change-of-mind refund.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Ask for the order number, purchase date, and item condition. Compare the request date with the purchase date before approving a return. Used items do not qualify for a change-of-mind refund.
Example	An unused bag purchased 12 days ago with a receipt qualifies for a refund request. A used bag does not qualify under this rule.
Practice question	Can I return an unused item after 12 days?

POLICY P002 | Policy and eligibility

Starting a return

Scope and rule

A return authorization must be issued before a customer sends an item back. Authorization remains valid for 14 calendar days.

Terms and conditions

• A return authorization must be issued before a customer sends an item back. Authorization remains valid for 14 calendar days.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P002
Rule	A return authorization must be issued before a customer sends an item back. Authorization remains valid for 14 calendar days.
Worked example	A customer receives authorization on the first day of the month. The parcel must be handed to the carrier within the next 14 calendar days.

POLICY P002 | Procedure and case handling

Starting a return

Scope and rule

A return authorization must be issued before a customer sends an item back. Authorization remains valid for 14 calendar days.

Required procedure

Submit the order number and return reason through the account return form. Support supplies a return reference and packing instructions. Write the reference on the parcel label, not on the product packaging.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Submit the order number and return reason through the account return form. Support supplies a return reference and packing instructions. Write the reference on the parcel label, not on the product packaging.
Example	A customer receives authorization on the first day of the month. The parcel must be handed to the carrier within the next 14 calendar days.
Practice question	How long is a return authorization valid?

POLICY P003 | Policy and eligibility

Return packaging

Scope and rule

Returned products must include their original accessories, manuals, and protective packaging. A missing accessory delays assessment until support reviews the case.

Terms and conditions

• Returned products must include their original accessories, manuals, and protective packaging. A missing accessory delays assessment until support reviews the case.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P003
Rule	Returned products must include their original accessories, manuals, and protective packaging. A missing accessory delays assessment until support reviews the case.
Worked example	A returned desk lamp arrives without its power adapter. The return team contacts the customer before deciding whether the assessment can proceed.

POLICY P003 | Procedure and case handling

Return packaging

Scope and rule

Returned products must include their original accessories, manuals, and protective packaging. A missing accessory delays assessment until support reviews the case.

Required procedure

Place the product box inside a separate shipping carton. Remove old shipping labels, cushion fragile parts, and place a copy of the return reference inside. Photograph the packed contents before sealing.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Place the product box inside a separate shipping carton. Remove old shipping labels, cushion fragile parts, and place a copy of the return reference inside. Photograph the packed contents before sealing.
Example	A returned desk lamp arrives without its power adapter. The return team contacts the customer before deciding whether the assessment can proceed.
Practice question	What should I include when packing a return?

POLICY P004 | Policy and eligibility

Return shipping costs

Scope and rule

The shop pays return shipping for an incorrect or damaged item. Customers pay return shipping for a change of mind.

Terms and conditions

• The shop pays return shipping for an incorrect or damaged item. Customers pay return shipping for a change of mind.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P004
Rule	The shop pays return shipping for an incorrect or damaged item. Customers pay return shipping for a change of mind.
Worked example	A customer receives the wrong size because the warehouse picked incorrectly. Support issues a prepaid return label for that item.

POLICY P004 | Procedure and case handling

Return shipping costs

Scope and rule

The shop pays return shipping for an incorrect or damaged item. Customers pay return shipping for a change of mind.

Required procedure

Support verifies the return reason before issuing a prepaid label. If the customer chooses a different carrier, reimbursement requires written approval obtained before posting. Keep the carrier receipt until the case closes.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Support verifies the return reason before issuing a prepaid label. If the customer chooses a different carrier, reimbursement requires written approval obtained before posting. Keep the carrier receipt until the case closes.
Example	A customer receives the wrong size because the warehouse picked incorrectly. Support issues a prepaid return label for that item.
Practice question	Who pays postage when the shop sends the wrong item?

POLICY P005 | Policy and eligibility

Refund processing

Scope and rule

Approved refunds are initiated within 5 business days after the returned item passes inspection. The payment provider may take another 3 to 7 business days to post the credit.

Terms and conditions

• Approved refunds are initiated within 5 business days after the returned item passes inspection. The payment provider may take another 3 to 7 business days to post the credit.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P005
Rule	Approved refunds are initiated within 5 business days after the returned item passes inspection. The payment provider may take another 3 to 7 business days to post the credit.
Worked example	An inspection is approved on Monday. The shop initiates the refund within five business days; the customer's bank then applies its own posting time.

POLICY P005 | Procedure and case handling

Refund processing

Scope and rule

Approved refunds are initiated within 5 business days after the returned item passes inspection. The payment provider may take another 3 to 7 business days to post the credit.

Required procedure

The warehouse records inspection completion and sends confirmation. Refunds go to the original payment method. Support can provide a refund reference after initiation but cannot shorten the bank's posting period.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	The warehouse records inspection completion and sends confirmation. Refunds go to the original payment method. Support can provide a refund reference after initiation but cannot shorten the bank's posting period.
Example	An inspection is approved on Monday. The shop initiates the refund within five business days; the customer's bank then applies its own posting time.
Practice question	How long does a refund take after inspection?

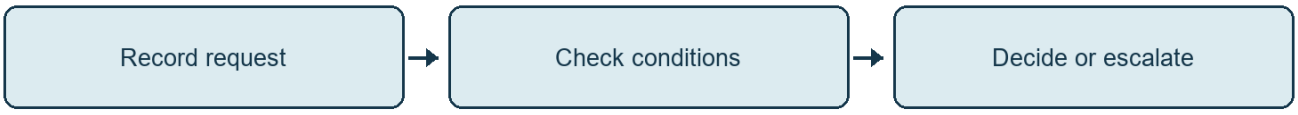

Figure 1: Refund processing workflow. Record the request, check the policy conditions, then decide or escalate. The diagram is a summary; the rules above remain controlling.

POLICY P006 | Policy and eligibility

Exchanging an item

Scope and rule

Unused items may be exchanged within 30 calendar days, subject to replacement stock. Exchanges require a receipt and completed inspection.

Terms and conditions

• Unused items may be exchanged within 30 calendar days, subject to replacement stock. Exchanges require a receipt and completed inspection.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P006
Rule	Unused items may be exchanged within 30 calendar days, subject to replacement stock. Exchanges require a receipt and completed inspection.
Worked example	A customer exchanges an unused shirt for a larger size at the same price. If stock is available, no price adjustment is needed.

POLICY P006 | Procedure and case handling

Exchanging an item

Scope and rule

Unused items may be exchanged within 30 calendar days, subject to replacement stock. Exchanges require a receipt and completed inspection.

Required procedure

Choose the replacement size or color before returning the original item. A higher-priced replacement requires payment of the difference; a lower-priced replacement produces a refund of the difference to the original method.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Choose the replacement size or color before returning the original item. A higher-priced replacement requires payment of the difference; a lower-priced replacement produces a refund of the difference to the original method.
Example	A customer exchanges an unused shirt for a larger size at the same price. If stock is available, no price adjustment is needed.
Practice question	Can I exchange an unused shirt for another size?

POLICY P007 | Policy and eligibility

Damaged on arrival

Scope and rule

Report visible transit damage within 48 hours of delivery. Keep the packaging and provide photographs of the item, shipping label, and damaged carton.

Terms and conditions

• Report visible transit damage within 48 hours of delivery. Keep the packaging and provide photographs of the item, shipping label, and damaged carton.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P007
Rule	Report visible transit damage within 48 hours of delivery. Keep the packaging and provide photographs of the item, shipping label, and damaged carton.
Worked example	A ceramic bowl arrives cracked. The customer sends photographs the next day and keeps the box while support arranges a replacement.

POLICY P007 | Procedure and case handling

Damaged on arrival

Scope and rule

Report visible transit damage within 48 hours of delivery. Keep the packaging and provide photographs of the item, shipping label, and damaged carton.

Required procedure

Stop using the item if it appears unsafe. Support reviews the evidence and arranges collection or replacement. Do not discard damaged goods until support confirms whether collection is required.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Stop using the item if it appears unsafe. Support reviews the evidence and arranges collection or replacement. Do not discard damaged goods until support confirms whether collection is required.
Example	A ceramic bowl arrives cracked. The customer sends photographs the next day and keeps the box while support arranges a replacement.
Practice question	What should I do if an item arrives broken?

POLICY P008 | Policy and eligibility

Incorrect items

Scope and rule

Report an item that differs from the order confirmation within 7 calendar days of delivery. The shop covers approved correction shipping.

Terms and conditions

• Report an item that differs from the order confirmation within 7 calendar days of delivery. The shop covers approved correction shipping.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P008
Rule	Report an item that differs from the order confirmation within 7 calendar days of delivery. The shop covers approved correction shipping.
Worked example	The confirmation lists a blue notebook, but a red notebook arrives. The customer reports the mismatch and receives correction instructions.

POLICY P008 | Procedure and case handling

Incorrect items

Scope and rule

Report an item that differs from the order confirmation within 7 calendar days of delivery. The shop covers approved correction shipping.

Required procedure

Compare the product code on the item with the order confirmation. Send both codes to support with a photograph. Support verifies the picking error and supplies instructions for exchanging the incorrect item.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Compare the product code on the item with the order confirmation. Send both codes to support with a photograph. Support verifies the picking error and supplies instructions for exchanging the incorrect item.
Example	The confirmation lists a blue notebook, but a red notebook arrives. The customer reports the mismatch and receives correction instructions.
Practice question	How do I report receiving the wrong product?

POLICY P009 | Policy and eligibility

Return exclusions

Scope and rule

Personalized goods, opened hygiene products, and redeemed digital codes are excluded from change-of-mind returns. Verified defects are reviewed separately.

Terms and conditions

• Personalized goods, opened hygiene products, and redeemed digital codes are excluded from change-of-mind returns. Verified defects are reviewed separately.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P009
Rule	Personalized goods, opened hygiene products, and redeemed digital codes are excluded from change-of-mind returns. Verified defects are reviewed separately.
Worked example	An engraved bottle cannot be returned just because the customer dislikes the message. A cracked bottle is assessed as a possible defect.

POLICY P009 | Procedure and case handling

Return exclusions

Scope and rule

Personalized goods, opened hygiene products, and redeemed digital codes are excluded from change-of-mind returns. Verified defects are reviewed separately.

Required procedure

Check the product category and whether customization or redemption has occurred. Explain the applicable exclusion before offering a standard return. Escalate a claimed defect for review rather than rejecting it solely by category.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Check the product category and whether customization or redemption has occurred. Explain the applicable exclusion before offering a standard return. Escalate a claimed defect for review rather than rejecting it solely by category.
Example	An engraved bottle cannot be returned just because the customer dislikes the message. A cracked bottle is assessed as a possible defect.
Practice question	Can I return a personalized item because I changed my mind?

POLICY P010 | Policy and eligibility

Gift returns

Scope and rule

An unused gift with a gift receipt may be returned within 30 calendar days of the original purchase. Approved gift returns receive store credit.

Terms and conditions

• An unused gift with a gift receipt may be returned within 30 calendar days of the original purchase. Approved gift returns receive store credit.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P010
Rule	An unused gift with a gift receipt may be returned within 30 calendar days of the original purchase. Approved gift returns receive store credit.
Worked example	A recipient returns an unused gift with a valid gift receipt. Once approved, the recipient receives store credit instead of cash.

POLICY P010 | Procedure and case handling

Gift returns

Scope and rule

An unused gift with a gift receipt may be returned within 30 calendar days of the original purchase. Approved gift returns receive store credit.

Required procedure

Use the gift receipt reference to identify the original purchase. Do not disclose the purchaser's payment details to the recipient. Explain that the return window starts at purchase, not the date the gift was opened.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Use the gift receipt reference to identify the original purchase. Do not disclose the purchaser's payment details to the recipient. Explain that the return window starts at purchase, not the date the gift was opened.
Example	A recipient returns an unused gift with a valid gift receipt. Once approved, the recipient receives store credit instead of cash.
Practice question	What payment do I receive for an approved gift return?

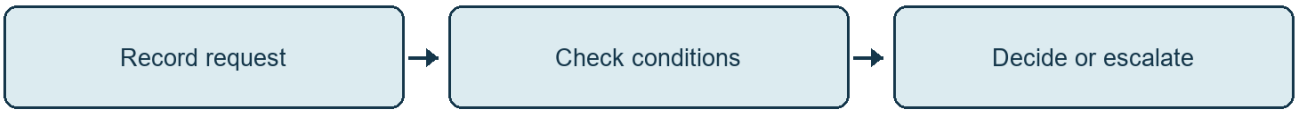

Figure 2: Gift returns workflow. Record the request, check the policy conditions, then decide or escalate. The diagram is a summary; the rules above remain controlling.

POLICY P011 | Policy and eligibility

Standard delivery

Scope and rule

Standard domestic delivery takes 3 to 5 business days after dispatch. The estimate excludes weekends and listed shop holidays.

Terms and conditions

• Standard domestic delivery takes 3 to 5 business days after dispatch. The estimate excludes weekends and listed shop holidays.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P011
Rule	Standard domestic delivery takes 3 to 5 business days after dispatch. The estimate excludes weekends and listed shop holidays.
Worked example	An order dispatched on a business Monday normally arrives within the next three to five business days, subject to carrier exceptions.

POLICY P011 | Procedure and case handling

Standard delivery

Scope and rule

Standard domestic delivery takes 3 to 5 business days after dispatch. The estimate excludes weekends and listed shop holidays.

Required procedure

Check the dispatch email for the start of the delivery estimate. Preparation time comes before transit time. Track the shipment using the carrier link and contact support if the last estimated delivery day has passed.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Check the dispatch email for the start of the delivery estimate. Preparation time comes before transit time. Track the shipment using the carrier link and contact support if the last estimated delivery day has passed.
Example	An order dispatched on a business Monday normally arrives within the next three to five business days, subject to carrier exceptions.
Practice question	When should a standard domestic shipment arrive?

POLICY P012 | Policy and eligibility

Express delivery

Scope and rule

Express domestic delivery takes 1 to 2 business days after dispatch where the checkout offers this service. Express shipping carries an additional fee.

Terms and conditions

• Express domestic delivery takes 1 to 2 business days after dispatch where the checkout offers this service. Express shipping carries an additional fee.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P012
Rule	Express domestic delivery takes 1 to 2 business days after dispatch where the checkout offers this service. Express shipping carries an additional fee.
Worked example	An in-stock item is dispatched on Tuesday using express service. Its expected transit time is one to two business days.

POLICY P012 | Procedure and case handling

Express delivery

Scope and rule

Express domestic delivery takes 1 to 2 business days after dispatch where the checkout offers this service. Express shipping carries an additional fee.

Required procedure

Confirm express availability for the delivery postal code at checkout. Selecting express affects transit speed but does not bypass a product's stated preparation time. The order summary shows the extra shipping charge.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Confirm express availability for the delivery postal code at checkout. Selecting express affects transit speed but does not bypass a product's stated preparation time. The order summary shows the extra shipping charge.
Example	An in-stock item is dispatched on Tuesday using express service. Its expected transit time is one to two business days.
Practice question	How quickly does express shipping arrive after dispatch?

POLICY P013 | Policy and eligibility

Free delivery threshold

Scope and rule

Standard domestic delivery is free when the merchandise subtotal after discounts is at least INR 999. Express and international delivery are excluded.

Terms and conditions

• Standard domestic delivery is free when the merchandise subtotal after discounts is at least INR 999. Express and international delivery are excluded.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P013
Rule	Standard domestic delivery is free when the merchandise subtotal after discounts is at least INR 999. Express and international delivery are excluded.
Worked example	An order worth INR 1,100 receives a discount of INR 150. The resulting INR 950 subtotal does not qualify for free standard delivery.

POLICY P013 | Procedure and case handling

Free delivery threshold

Scope and rule

Standard domestic delivery is free when the merchandise subtotal after discounts is at least INR 999. Express and international delivery are excluded.

Required procedure

Calculate the qualifying subtotal after applying discounts and before adding shipping. Gift-card payment does not reduce the merchandise subtotal. If the order falls below the threshold, checkout displays the applicable standard shipping fee.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Calculate the qualifying subtotal after applying discounts and before adding shipping. Gift-card payment does not reduce the merchandise subtotal. If the order falls below the threshold, checkout displays the applicable standard shipping fee.
Example	An order worth INR 1,100 receives a discount of INR 150. The resulting INR 950 subtotal does not qualify for free standard delivery.
Practice question	Does a discounted subtotal of INR 950 qualify for free shipping?

POLICY P014 | Policy and eligibility

Dispatch preparation

Scope and rule

In-stock orders normally require 1 to 2 business days for preparation before dispatch. Made-to-order products follow the preparation estimate on their product page.

Terms and conditions

• In-stock orders normally require 1 to 2 business days for preparation before dispatch. Made-to-order products follow the preparation estimate on their product page.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P014
Rule	In-stock orders normally require 1 to 2 business days for preparation before dispatch. Made-to-order products follow the preparation estimate on their product page.
Worked example	A customer places an in-stock order on Friday evening. Weekend days do not count toward the one-to-two-business-day preparation estimate.

POLICY P014 | Procedure and case handling

Dispatch preparation

Scope and rule

In-stock orders normally require 1 to 2 business days for preparation before dispatch. Made-to-order products follow the preparation estimate on their product page.

Required procedure

Distinguish order confirmation from dispatch confirmation. Payment checks and address clarification can pause preparation. The customer receives tracking information only after the parcel is assigned to a carrier.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Distinguish order confirmation from dispatch confirmation. Payment checks and address clarification can pause preparation. The customer receives tracking information only after the parcel is assigned to a carrier.
Example	A customer places an in-stock order on Friday evening. Weekend days do not count toward the one-to-two-business-day preparation estimate.
Practice question	Is order preparation included in the delivery transit estimate?

POLICY P015 | Policy and eligibility

Changing an address

Scope and rule

A delivery address may be changed before the order reaches the dispatched status. Changes after dispatch depend on the carrier and are not guaranteed.

Terms and conditions

• A delivery address may be changed before the order reaches the dispatched status. Changes after dispatch depend on the carrier and are not guaranteed.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P015
Rule	A delivery address may be changed before the order reaches the dispatched status. Changes after dispatch depend on the carrier and are not guaranteed.
Worked example	A customer updates the address book after placing an order. The current order still uses its original address until support confirms a change.

POLICY P015 | Procedure and case handling

Changing an address

Scope and rule

A delivery address may be changed before the order reaches the dispatched status. Changes after dispatch depend on the carrier and are not guaranteed.

Required procedure

Contact support immediately with the order number and corrected address. Support verifies the requester and checks shipment status before making changes. Do not assume that editing the account address changes an existing order.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Contact support immediately with the order number and corrected address. Support verifies the requester and checks shipment status before making changes. Do not assume that editing the account address changes an existing order.
Example	A customer updates the address book after placing an order. The current order still uses its original address until support confirms a change.
Practice question	Does editing my saved address update an order already placed?

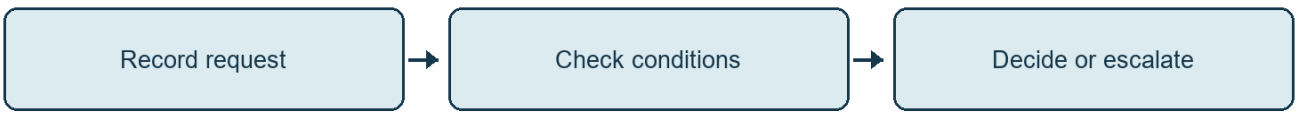

Figure 3: Changing an address workflow. Record the request, check the policy conditions, then decide or escalate. The diagram is a summary; the rules above remain controlling.

POLICY P016 | Policy and eligibility

Tracking a shipment

Scope and rule

Tracking links are emailed after dispatch. Carrier tracking events may take up to 24 hours to appear after the first dispatch notification.

Terms and conditions

• Tracking links are emailed after dispatch. Carrier tracking events may take up to 24 hours to appear after the first dispatch notification.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P016
Rule	Tracking links are emailed after dispatch. Carrier tracking events may take up to 24 hours to appear after the first dispatch notification.
Worked example	A parcel receives a tracking number at 6 PM, but the carrier page remains empty that evening. The first scan may appear the following day.

POLICY P016 | Procedure and case handling

Tracking a shipment

Scope and rule

Tracking links are emailed after dispatch. Carrier tracking events may take up to 24 hours to appear after the first dispatch notification.

Required procedure

Open the tracking link from the dispatch message and check its latest event time. A label-created status does not prove a parcel is moving. Contact support if no carrier event appears after 24 hours.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Open the tracking link from the dispatch message and check its latest event time. A label-created status does not prove a parcel is moving. Contact support if no carrier event appears after 24 hours.
Example	A parcel receives a tracking number at 6 PM, but the carrier page remains empty that evening. The first scan may appear the following day.
Practice question	How long can it take for tracking events to appear?

POLICY P017 | Policy and eligibility

Missed delivery

Scope and rule

The carrier normally makes two delivery attempts. After unsuccessful attempts, the parcel may be held locally or returned to the shop.

Terms and conditions

• The carrier normally makes two delivery attempts. After unsuccessful attempts, the parcel may be held locally or returned to the shop.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P017
Rule	The carrier normally makes two delivery attempts. After unsuccessful attempts, the parcel may be held locally or returned to the shop.
Worked example	A customer misses the first attempt and schedules the second using the carrier link. The customer ensures someone is available to receive the parcel.

POLICY P017 | Procedure and case handling

Missed delivery

Scope and rule

The carrier normally makes two delivery attempts. After unsuccessful attempts, the parcel may be held locally or returned to the shop.

Required procedure

Read the carrier's missed-delivery message for rescheduling options. Provide a reachable phone number and accurate access instructions. Support can help interpret tracking but cannot guarantee a third delivery attempt.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Read the carrier's missed-delivery message for rescheduling options. Provide a reachable phone number and accurate access instructions. Support can help interpret tracking but cannot guarantee a third delivery attempt.
Example	A customer misses the first attempt and schedules the second using the carrier link. The customer ensures someone is available to receive the parcel.
Practice question	How many delivery attempts are normally made?

POLICY P018 | Policy and eligibility

Lost shipments

Scope and rule

Ask support to investigate if tracking has not changed for 5 business days or shows delivered while the parcel cannot be located.

Terms and conditions

• Ask support to investigate if tracking has not changed for 5 business days or shows delivered while the parcel cannot be located.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P018
Rule	Ask support to investigate if tracking has not changed for 5 business days or shows delivered while the parcel cannot be located.
Worked example	Tracking says delivered, but neither the customer nor reception received the package. Support opens an investigation with the carrier.

POLICY P018 | Procedure and case handling

Lost shipments

Scope and rule

Ask support to investigate if tracking has not changed for 5 business days or shows delivered while the parcel cannot be located.

Required procedure

Check with household members and the building reception before opening a case. Support requests delivery evidence from the carrier. A replacement or refund is decided after investigation, not automatically from a missing scan.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Check with household members and the building reception before opening a case. Support requests delivery evidence from the carrier. A replacement or refund is decided after investigation, not automatically from a missing scan.
Example	Tracking says delivered, but neither the customer nor reception received the package. Support opens an investigation with the carrier.
Practice question	What should I do if tracking says delivered but I have no parcel?

POLICY P019 | Policy and eligibility

International delivery

Scope and rule

International delivery takes 7 to 14 business days after dispatch to supported countries. Customs review may add time beyond this estimate.

Terms and conditions

• International delivery takes 7 to 14 business days after dispatch to supported countries. Customs review may add time beyond this estimate.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P019
Rule	International delivery takes 7 to 14 business days after dispatch to supported countries. Customs review may add time beyond this estimate.
Worked example	An overseas parcel reaches customs during the estimated transit window. Clearance delays can extend its arrival beyond fourteen business days.

POLICY P019 | Procedure and case handling

International delivery

Scope and rule

International delivery takes 7 to 14 business days after dispatch to supported countries. Customs review may add time beyond this estimate.

Required procedure

Check country availability at checkout before placing the order. Supply a complete address and reachable telephone number. Customs-related requests come from the carrier or relevant authority and should be reviewed promptly.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Check country availability at checkout before placing the order. Supply a complete address and reachable telephone number. Customs-related requests come from the carrier or relevant authority and should be reviewed promptly.
Example	An overseas parcel reaches customs during the estimated transit window. Clearance delays can extend its arrival beyond fourteen business days.
Practice question	What is the estimated international delivery time?

POLICY P020 | Policy and eligibility

Customs charges

Scope and rule

For international orders, the recipient pays import duties and local clearance charges unless checkout explicitly states that these charges are included.

Terms and conditions

• For international orders, the recipient pays import duties and local clearance charges unless checkout explicitly states that these charges are included.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P020
Rule	For international orders, the recipient pays import duties and local clearance charges unless checkout explicitly states that these charges are included.
Worked example	Checkout lists shipping but no prepaid import duties. The recipient may receive a separate duty request from the carrier.

POLICY P020 | Procedure and case handling

Customs charges

Scope and rule

For international orders, the recipient pays import duties and local clearance charges unless checkout explicitly states that these charges are included.

Required procedure

Review the checkout breakdown and retain it with the order confirmation. The shop cannot provide a universal duty estimate for every destination. A refusal to pay customs charges can lead to a returned shipment.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Review the checkout breakdown and retain it with the order confirmation. The shop cannot provide a universal duty estimate for every destination. A refusal to pay customs charges can lead to a returned shipment.
Example	Checkout lists shipping but no prepaid import duties. The recipient may receive a separate duty request from the carrier.
Practice question	Who pays import duties if checkout does not include them?

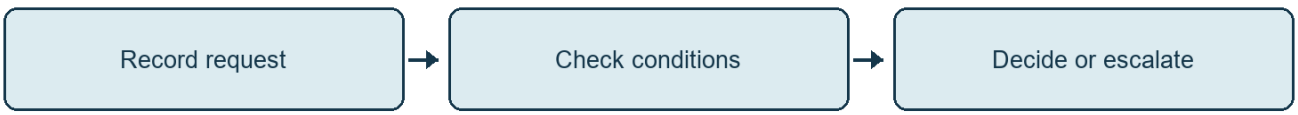

Figure 4: Customs charges workflow. Record the request, check the policy conditions, then decide or escalate. The diagram is a summary; the rules above remain controlling.

POLICY P021 | Policy and eligibility

Supported payments

Scope and rule

The shop accepts credit cards, debit cards, and UPI for domestic orders. Cash on delivery is not available.

Terms and conditions

• The shop accepts credit cards, debit cards, and UPI for domestic orders. Cash on delivery is not available.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P021
Rule	The shop accepts credit cards, debit cards, and UPI for domestic orders. Cash on delivery is not available.
Worked example	A domestic customer pays by UPI and receives confirmation after the payment provider reports success. Paying cash to the delivery driver is not an option.

POLICY P021 | Procedure and case handling

Supported payments

Scope and rule

The shop accepts credit cards, debit cards, and UPI for domestic orders. Cash on delivery is not available.

Required procedure

Choose an available payment method at checkout and complete the provider's verification. Availability can vary by destination. Support never asks customers to reveal full card numbers, PINs, or one-time passwords.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Choose an available payment method at checkout and complete the provider's verification. Availability can vary by destination. Support never asks customers to reveal full card numbers, PINs, or one-time passwords.
Example	A domestic customer pays by UPI and receives confirmation after the payment provider reports success. Paying cash to the delivery driver is not an option.
Practice question	Can I pay cash when my parcel arrives?

POLICY P022 | Policy and eligibility

Failed payments

Scope and rule

A failed checkout does not create a confirmed paid order. Customers should check their order history before attempting payment again.

Terms and conditions

• A failed checkout does not create a confirmed paid order. Customers should check their order history before attempting payment again.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P022
Rule	A failed checkout does not create a confirmed paid order. Customers should check their order history before attempting payment again.
Worked example	A UPI transaction shows a debit, but no order confirmation arrives. Support checks the reference before recommending another payment attempt.

POLICY P022 | Procedure and case handling

Failed payments

Scope and rule

A failed checkout does not create a confirmed paid order. Customers should check their order history before attempting payment again.

Required procedure

If money was debited without confirmation, keep the payment reference and contact support. Avoid repeated attempts until status is checked. The payment provider determines when an unsuccessful debit is reversed.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	If money was debited without confirmation, keep the payment reference and contact support. Avoid repeated attempts until status is checked. The payment provider determines when an unsuccessful debit is reversed.
Example	A UPI transaction shows a debit, but no order confirmation arrives. Support checks the reference before recommending another payment attempt.
Practice question	What if payment was debited but no order was confirmed?

POLICY P023 | Policy and eligibility

Duplicate charges

Scope and rule

Report a suspected duplicate payment with the order number and both transaction references. Support checks whether the entries are settled charges or temporary authorizations.

Terms and conditions

• Report a suspected duplicate payment with the order number and both transaction references. Support checks whether the entries are settled charges or temporary authorizations.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P023
Rule	Report a suspected duplicate payment with the order number and both transaction references. Support checks whether the entries are settled charges or temporary authorizations.
Worked example	Two notifications appear for one order, but one entry is pending. Support verifies settlement before labeling it a duplicate charge.

POLICY P023 | Procedure and case handling

Duplicate charges

Scope and rule

Report a suspected duplicate payment with the order number and both transaction references. Support checks whether the entries are settled charges or temporary authorizations.

Required procedure

Compare amounts, dates, and transaction identifiers rather than relying only on notifications. Do not send full payment credentials. Confirmed duplicate settlements are referred for correction through the original payment provider.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Compare amounts, dates, and transaction identifiers rather than relying only on notifications. Do not send full payment credentials. Confirmed duplicate settlements are referred for correction through the original payment provider.
Example	Two notifications appear for one order, but one entry is pending. Support verifies settlement before labeling it a duplicate charge.
Practice question	What evidence helps investigate a duplicate payment?

POLICY P024 | Policy and eligibility

Invoices

Scope and rule

A digital invoice is available in the account after dispatch. Billing details should be entered correctly before the order is confirmed.

Terms and conditions

• A digital invoice is available in the account after dispatch. Billing details should be entered correctly before the order is confirmed.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P024
Rule	A digital invoice is available in the account after dispatch. Billing details should be entered correctly before the order is confirmed.
Worked example	A customer needs an invoice for reimbursement. After dispatch, the customer downloads the digital invoice from the relevant order.

POLICY P024 | Procedure and case handling

Invoices

Scope and rule

A digital invoice is available in the account after dispatch. Billing details should be entered correctly before the order is confirmed.

Required procedure

Open order history and select the invoice download. Contact support if the invoice is missing or contains an error. A request to change legal billing details requires review and may not be possible after issuance.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Open order history and select the invoice download. Contact support if the invoice is missing or contains an error. A request to change legal billing details requires review and may not be possible after issuance.
Example	A customer needs an invoice for reimbursement. After dispatch, the customer downloads the digital invoice from the relevant order.
Practice question	When can I download an invoice?

POLICY P025 | Policy and eligibility

Discount codes

Scope and rule

Only one promotional discount code may be used per order. Codes must be entered before payment and cannot be added retroactively.

Terms and conditions

• Only one promotional discount code may be used per order. Codes must be entered before payment and cannot be added retroactively.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P025
Rule	Only one promotional discount code may be used per order. Codes must be entered before payment and cannot be added retroactively.
Worked example	A customer forgets to apply a promotion before payment. Support cannot attach the code to the completed order afterward.

POLICY P025 | Procedure and case handling

Discount codes

Scope and rule

Only one promotional discount code may be used per order. Codes must be entered before payment and cannot be added retroactively.

Required procedure

Check the code's expiry, eligible products, and minimum subtotal. An automatic offer may make another code unavailable. Review the final total before paying because eligibility is assessed at checkout.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Check the code's expiry, eligible products, and minimum subtotal. An automatic offer may make another code unavailable. Review the final total before paying because eligibility is assessed at checkout.
Example	A customer forgets to apply a promotion before payment. Support cannot attach the code to the completed order afterward.
Practice question	Can I add a discount code after paying?

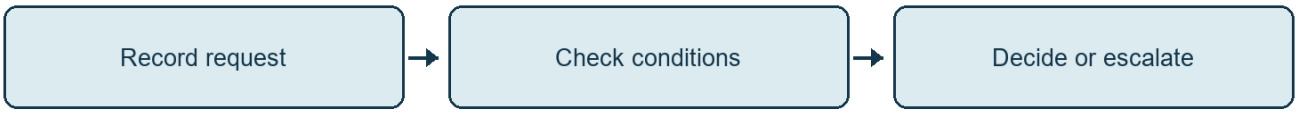

Figure 5: Discount codes workflow. Record the request, check the policy conditions, then decide or escalate. The diagram is a summary; the rules above remain controlling.

POLICY P026 | Policy and eligibility

Gift cards

Scope and rule

Shop gift cards remain valid for 12 months from issue and can be used across multiple orders until their balance is exhausted.

Terms and conditions

• Shop gift cards remain valid for 12 months from issue and can be used across multiple orders until their balance is exhausted.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P026
Rule	Shop gift cards remain valid for 12 months from issue and can be used across multiple orders until their balance is exhausted.
Worked example	A gift card has INR 600 remaining and the order totals INR 800. The customer pays the additional INR 200 with a supported payment method.

POLICY P026 | Procedure and case handling

Gift cards

Scope and rule

Shop gift cards remain valid for 12 months from issue and can be used across multiple orders until their balance is exhausted.

Required procedure

Enter the gift-card code at checkout and check the remaining balance in the account. If the balance is insufficient, use another supported method for the remainder. Treat the code like cash and keep it private.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Enter the gift-card code at checkout and check the remaining balance in the account. If the balance is insufficient, use another supported method for the remainder. Treat the code like cash and keep it private.
Example	A gift card has INR 600 remaining and the order totals INR 800. The customer pays the additional INR 200 with a supported payment method.
Practice question	Can I split payment between a gift card and another method?

POLICY P027 | Policy and eligibility

Store credit

Scope and rule

Store credit is attached to the customer account and expires 6 months after issue. It cannot be transferred to another account or exchanged for cash.

Terms and conditions

• Store credit is attached to the customer account and expires 6 months after issue. It cannot be transferred to another account or exchanged for cash.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P027
Rule	Store credit is attached to the customer account and expires 6 months after issue. It cannot be transferred to another account or exchanged for cash.
Worked example	A customer tries to use a friend's store credit. The balance is unavailable because it belongs to a different account.

POLICY P027 | Procedure and case handling

Store credit

Scope and rule

Store credit is attached to the customer account and expires 6 months after issue. It cannot be transferred to another account or exchanged for cash.

Required procedure

Sign in to the account that received the credit before checkout. Review the expiry date and available balance. For a return paid partly with credit, the credited portion returns to the account under the applicable expiry terms.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Sign in to the account that received the credit before checkout. Review the expiry date and available balance. For a return paid partly with credit, the credited portion returns to the account under the applicable expiry terms.
Example	A customer tries to use a friend's store credit. The balance is unavailable because it belongs to a different account.
Practice question	Can store credit be transferred to a friend?

POLICY P028 | Policy and eligibility

Order cancellation

Scope and rule

Orders may be canceled before dispatch. Once dispatched, the customer must follow the return process instead of requesting cancellation.

Terms and conditions

• Orders may be canceled before dispatch. Once dispatched, the customer must follow the return process instead of requesting cancellation.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P028
Rule	Orders may be canceled before dispatch. Once dispatched, the customer must follow the return process instead of requesting cancellation.
Worked example	A customer requests cancellation after the carrier collects the parcel. Support explains that the shipment now follows the return process.

POLICY P028 | Procedure and case handling

Order cancellation

Scope and rule

Orders may be canceled before dispatch. Once dispatched, the customer must follow the return process instead of requesting cancellation.

Required procedure

Use the cancel option in order history if it is available. Otherwise contact support with the order number. A cancellation request is not complete until confirmation is received; processing can continue while a request is being checked.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Use the cancel option in order history if it is available. Otherwise contact support with the order number. A cancellation request is not complete until confirmation is received; processing can continue while a request is being checked.
Example	A customer requests cancellation after the carrier collects the parcel. Support explains that the shipment now follows the return process.
Practice question	Can an order be canceled after dispatch?

POLICY P029 | Policy and eligibility

Editing an order

Scope and rule

Products, sizes, and quantities cannot be edited after order confirmation. A customer may cancel an eligible undispatched order and place a new one.

Terms and conditions

• Products, sizes, and quantities cannot be edited after order confirmation. A customer may cancel an eligible undispatched order and place a new one.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P029
Rule	Products, sizes, and quantities cannot be edited after order confirmation. A customer may cancel an eligible undispatched order and place a new one.
Worked example	A customer orders two notebooks but wants three. If cancellation is still available, the customer can cancel and submit a new order for three.

POLICY P029 | Procedure and case handling

Editing an order

Scope and rule

Products, sizes, and quantities cannot be edited after order confirmation. A customer may cancel an eligible undispatched order and place a new one.

Required procedure

Check dispatch status before requesting cancellation. Prices and stock are checked again for the replacement order. Support cannot reserve the original promotional price while a different order is being placed.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Check dispatch status before requesting cancellation. Prices and stock are checked again for the replacement order. Support cannot reserve the original promotional price while a different order is being placed.
Example	A customer orders two notebooks but wants three. If cancellation is still available, the customer can cancel and submit a new order for three.
Practice question	Can I change the quantity after confirming an order?

POLICY P030 | Policy and eligibility

Preorders

Scope and rule

Preorder product pages state an estimated dispatch date. An order containing a preorder may be held until that product is ready unless split shipment is offered.

Terms and conditions

• Preorder product pages state an estimated dispatch date. An order containing a preorder may be held until that product is ready unless split shipment is offered.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P030
Rule	Preorder product pages state an estimated dispatch date. An order containing a preorder may be held until that product is ready unless split shipment is offered.
Worked example	A basket contains an available pen and a preorder planner. If split shipment is not offered, both may ship when the planner is ready.

POLICY P030 | Procedure and case handling

Preorders

Scope and rule

Preorder product pages state an estimated dispatch date. An order containing a preorder may be held until that product is ready unless split shipment is offered.

Required procedure

Read the preorder notice before checkout and retain the confirmation. Estimated dates can change; support sends an update when a material delay is known. Cancellation eligibility is checked against dispatch status.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Read the preorder notice before checkout and retain the confirmation. Estimated dates can change; support sends an update when a material delay is known. Cancellation eligibility is checked against dispatch status.
Example	A basket contains an available pen and a preorder planner. If split shipment is not offered, both may ship when the planner is ready.
Practice question	Can an in-stock item wait for a preorder in the same order?

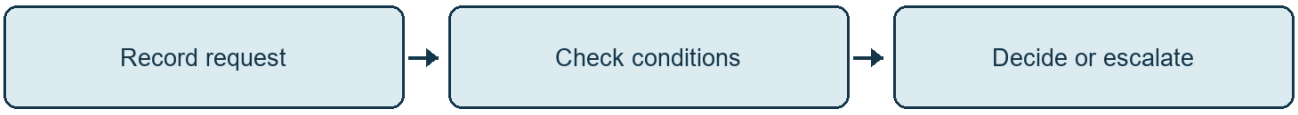

Figure 6: Preorders workflow. Record the request, check the policy conditions, then decide or escalate. The diagram is a summary; the rules above remain controlling.

POLICY P031 | Policy and eligibility

Out-of-stock alerts

Scope and rule

Customers may request an email alert for an unavailable product. An alert is a notification, not a reservation or guarantee of stock.

Terms and conditions

• Customers may request an email alert for an unavailable product. An alert is a notification, not a reservation or guarantee of stock.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P031
Rule	Customers may request an email alert for an unavailable product. An alert is a notification, not a reservation or guarantee of stock.
Worked example	A customer receives a restock email but returns two days later. The alert does not guarantee that the item is still available.

POLICY P031 | Procedure and case handling

Out-of-stock alerts

Scope and rule

Customers may request an email alert for an unavailable product. An alert is a notification, not a reservation or guarantee of stock.

Required procedure

Choose the correct size and color before subscribing to an alert. When the notification arrives, visit the product page to check availability. Popular stock may sell out before the customer completes checkout.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Choose the correct size and color before subscribing to an alert. When the notification arrives, visit the product page to check availability. Popular stock may sell out before the customer completes checkout.
Example	A customer receives a restock email but returns two days later. The alert does not guarantee that the item is still available.
Practice question	Does a restock alert reserve a product for me?

POLICY P032 | Policy and eligibility

Split shipments

Scope and rule

An order may arrive in multiple parcels when items are dispatched from different locations. Each parcel receives its own tracking reference.

Terms and conditions

• An order may arrive in multiple parcels when items are dispatched from different locations. Each parcel receives its own tracking reference.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P032
Rule	An order may arrive in multiple parcels when items are dispatched from different locations. Each parcel receives its own tracking reference.
Worked example	A customer orders a lamp and a notebook. The notebook arrives first, and a second tracking reference shows the lamp is still on its way.

POLICY P032 | Procedure and case handling

Split shipments

Scope and rule

An order may arrive in multiple parcels when items are dispatched from different locations. Each parcel receives its own tracking reference.

Required procedure

Compare the items listed in each dispatch email with the full order. Receiving one parcel does not mean the entire order was delivered. Contact support only after checking whether another shipment remains in transit.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Compare the items listed in each dispatch email with the full order. Receiving one parcel does not mean the entire order was delivered. Contact support only after checking whether another shipment remains in transit.
Example	A customer orders a lamp and a notebook. The notebook arrives first, and a second tracking reference shows the lamp is still on its way.
Practice question	Why did only part of my order arrive?

POLICY P033 | Policy and eligibility

Quantity limits

Scope and rule

Some promotional products have a limit of two units per customer. The product page states any applicable limit before checkout.

Terms and conditions

• Some promotional products have a limit of two units per customer. The product page states any applicable limit before checkout.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P033
Rule	Some promotional products have a limit of two units per customer. The product page states any applicable limit before checkout.
Worked example	A limited promotion allows two bottles per customer. Placing separate orders does not create an entitlement to exceed the published limit.

POLICY P033 | Procedure and case handling

Quantity limits

Scope and rule

Some promotional products have a limit of two units per customer. The product page states any applicable limit before checkout.

Required procedure

Review product restrictions when ordering multiple units. Orders designed to bypass a published quantity limit may be reviewed or canceled. Contact the bulk-order team for legitimate larger requirements.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Review product restrictions when ordering multiple units. Orders designed to bypass a published quantity limit may be reviewed or canceled. Contact the bulk-order team for legitimate larger requirements.
Example	A limited promotion allows two bottles per customer. Placing separate orders does not create an entitlement to exceed the published limit.
Practice question	Can I bypass a purchase limit with separate orders?

POLICY P034 | Policy and eligibility

Bulk orders

Scope and rule

Requests for 20 or more units should be sent to the bulk-order team for a written quote. Standard promotional codes do not automatically apply to quoted orders.

Terms and conditions

• Requests for 20 or more units should be sent to the bulk-order team for a written quote. Standard promotional codes do not automatically apply to quoted orders.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P034
Rule	Requests for 20 or more units should be sent to the bulk-order team for a written quote. Standard promotional codes do not automatically apply to quoted orders.
Worked example	A business needs 35 notebooks for an event. It requests a bulk quote instead of assuming the retail checkout can guarantee that quantity.

POLICY P034 | Procedure and case handling

Bulk orders

Scope and rule

Requests for 20 or more units should be sent to the bulk-order team for a written quote. Standard promotional codes do not automatically apply to quoted orders.

Required procedure

Provide product codes, quantities, destination, and required date. The quote identifies pricing, payment terms, and delivery assumptions. A quote does not reserve inventory until the stated acceptance conditions are met.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Provide product codes, quantities, destination, and required date. The quote identifies pricing, payment terms, and delivery assumptions. A quote does not reserve inventory until the stated acceptance conditions are met.
Example	A business needs 35 notebooks for an event. It requests a bulk quote instead of assuming the retail checkout can guarantee that quantity.
Practice question	How should I order 35 units for an event?

POLICY P035 | Policy and eligibility

Price adjustments

Scope and rule

The shop does not provide retrospective price adjustments when a product price drops after a completed purchase.

Terms and conditions

• The shop does not provide retrospective price adjustments when a product price drops after a completed purchase.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P035
Rule	The shop does not provide retrospective price adjustments when a product price drops after a completed purchase.
Worked example	A bag goes on sale a week after purchase. The earlier order retains the price accepted when it was placed.

POLICY P035 | Procedure and case handling

Price adjustments

Scope and rule

The shop does not provide retrospective price adjustments when a product price drops after a completed purchase.

Required procedure

Review the price shown at checkout before payment. A later promotion applies to new qualifying purchases under its own terms. Support can explain the original invoice but cannot automatically refund a later price difference.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Review the price shown at checkout before payment. A later promotion applies to new qualifying purchases under its own terms. Support can explain the original invoice but cannot automatically refund a later price difference.
Example	A bag goes on sale a week after purchase. The earlier order retains the price accepted when it was placed.
Practice question	Can I claim a price difference after a later sale?

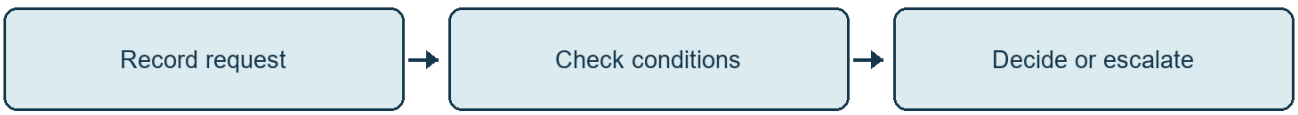

Figure 7: Price adjustments workflow. Record the request, check the policy conditions, then decide or escalate. The diagram is a summary; the rules above remain controlling.

POLICY P036 | Policy and eligibility

Product sizing

Scope and rule

Product-specific size charts should be used before ordering. Measurements may differ across brands and product ranges.

Terms and conditions

• Product-specific size charts should be used before ordering. Measurements may differ across brands and product ranges.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P036
Rule	Product-specific size charts should be used before ordering. Measurements may differ across brands and product ranges.
Worked example	A customer usually buys a medium in another brand. The new product's measurements indicate a large, so the customer follows its own size chart.

POLICY P036 | Procedure and case handling

Product sizing

Scope and rule

Product-specific size charts should be used before ordering. Measurements may differ across brands and product ranges.

Required procedure

Measure according to the guide on the relevant product page. Compare the measurement with that product's chart rather than a previous purchase from another brand. Contact support if a listed dimension is unclear.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Measure according to the guide on the relevant product page. Compare the measurement with that product's chart rather than a previous purchase from another brand. Contact support if a listed dimension is unclear.
Example	A customer usually buys a medium in another brand. The new product's measurements indicate a large, so the customer follows its own size chart.
Practice question	Should I use one brand's size chart for another brand?

POLICY P037 | Policy and eligibility

Care instructions

Scope and rule

Follow the care label supplied with each product. Damage caused by cleaning methods that contradict the label is not treated as a manufacturing defect.

Terms and conditions

• Follow the care label supplied with each product. Damage caused by cleaning methods that contradict the label is not treated as a manufacturing defect.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P037
Rule	Follow the care label supplied with each product. Damage caused by cleaning methods that contradict the label is not treated as a manufacturing defect.
Worked example	A fabric pouch marked hand-wash-only is damaged in a hot machine cycle. This is assessed as care-related damage rather than a manufacturing fault.

POLICY P037 | Procedure and case handling

Care instructions

Scope and rule

Follow the care label supplied with each product. Damage caused by cleaning methods that contradict the label is not treated as a manufacturing defect.

Required procedure

Check washing temperature, drying method, and restrictions before first use. Test a permitted cleaning method on a small area when appropriate. Support can help locate missing instructions but does not replace product-specific guidance.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Check washing temperature, drying method, and restrictions before first use. Test a permitted cleaning method on a small area when appropriate. Support can help locate missing instructions but does not replace product-specific guidance.
Example	A fabric pouch marked hand-wash-only is damaged in a hot machine cycle. This is assessed as care-related damage rather than a manufacturing fault.
Practice question	Does damage from ignoring the care label count as a defect?

POLICY P038 | Policy and eligibility

Warranty coverage

Scope and rule

Products marked with the shop warranty have 12 months of coverage for manufacturing defects from the purchase date. Accidental damage and normal wear are excluded.

Terms and conditions

• Products marked with the shop warranty have 12 months of coverage for manufacturing defects from the purchase date. Accidental damage and normal wear are excluded.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P038
Rule	Products marked with the shop warranty have 12 months of coverage for manufacturing defects from the purchase date. Accidental damage and normal wear are excluded.
Worked example	A covered lamp stops working after normal use at six months. Support opens a manufacturing-defect assessment using the invoice and serial number.

POLICY P038 | Procedure and case handling

Warranty coverage

Scope and rule

Products marked with the shop warranty have 12 months of coverage for manufacturing defects from the purchase date. Accidental damage and normal wear are excluded.

Required procedure

Keep the invoice and product serial number where applicable. Describe when the fault first appeared and whether the item has been modified. Warranty assessment may require inspection before repair or replacement is approved.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Keep the invoice and product serial number where applicable. Describe when the fault first appeared and whether the item has been modified. Warranty assessment may require inspection before repair or replacement is approved.
Example	A covered lamp stops working after normal use at six months. Support opens a manufacturing-defect assessment using the invoice and serial number.
Practice question	How long is the shop's manufacturing-defect warranty?

POLICY P039 | Policy and eligibility

Making a warranty claim

Scope and rule

Warranty claims require proof of purchase, a description of the fault, and clear photographs or video where the issue can be shown safely.

Terms and conditions

• Warranty claims require proof of purchase, a description of the fault, and clear photographs or video where the issue can be shown safely.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P039
Rule	Warranty claims require proof of purchase, a description of the fault, and clear photographs or video where the issue can be shown safely.
Worked example	A customer notices an intermittent fault and records a safe demonstration. Support reviews the evidence before deciding whether to collect the product.

POLICY P039 | Procedure and case handling

Making a warranty claim

Scope and rule

Warranty claims require proof of purchase, a description of the fault, and clear photographs or video where the issue can be shown safely.

Required procedure

Stop using an electrical product if it appears unsafe. Submit evidence through support and wait for inspection instructions. Do not arrange an unauthorized repair before the claim is assessed, as this may affect coverage.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Stop using an electrical product if it appears unsafe. Submit evidence through support and wait for inspection instructions. Do not arrange an unauthorized repair before the claim is assessed, as this may affect coverage.
Example	A customer notices an intermittent fault and records a safe demonstration. Support reviews the evidence before deciding whether to collect the product.
Practice question	What evidence is needed for a warranty claim?

POLICY P040 | Policy and eligibility

Repair turnaround

Scope and rule

An approved workshop repair is normally completed within 10 business days after the workshop receives the item. Parts shortages may extend the estimate.

Terms and conditions

• An approved workshop repair is normally completed within 10 business days after the workshop receives the item. Parts shortages may extend the estimate.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P040
Rule	An approved workshop repair is normally completed within 10 business days after the workshop receives the item. Parts shortages may extend the estimate.
Worked example	An item reaches the workshop on Wednesday. The repair estimate begins at workshop receipt rather than when the customer posted the parcel.

POLICY P040 | Procedure and case handling

Repair turnaround

Scope and rule

An approved workshop repair is normally completed within 10 business days after the workshop receives the item. Parts shortages may extend the estimate.

Required procedure

The workshop confirms receipt separately from the customer's shipping receipt. Support provides an update if parts are unavailable. Return transit time is additional to the workshop's repair estimate.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	The workshop confirms receipt separately from the customer's shipping receipt. Support provides an update if parts are unavailable. Return transit time is additional to the workshop's repair estimate.
Example	An item reaches the workshop on Wednesday. The repair estimate begins at workshop receipt rather than when the customer posted the parcel.
Practice question	When does the repair turnaround estimate begin?

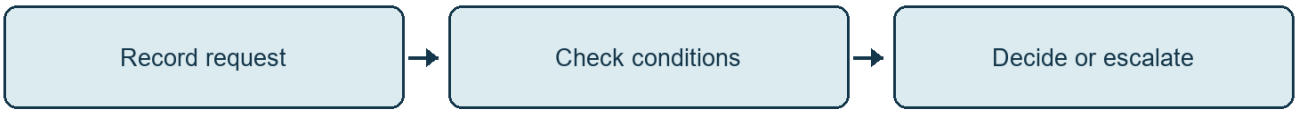

Figure 8: Repair turnaround workflow. Record the request, check the policy conditions, then decide or escalate. The diagram is a summary; the rules above remain controlling.

POLICY P041 | Policy and eligibility

Spare parts

Scope and rule

Spare-part availability depends on the product model. Support checks compatibility before quoting a replacement accessory or component.

Terms and conditions

• Spare-part availability depends on the product model. Support checks compatibility before quoting a replacement accessory or component.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P041
Rule	Spare-part availability depends on the product model. Support checks compatibility before quoting a replacement accessory or component.
Worked example	Two lamps use similar-looking adapters with different specifications. Support checks the exact lamp model before recommending an adapter.

POLICY P041 | Procedure and case handling

Spare parts

Scope and rule

Spare-part availability depends on the product model. Support checks compatibility before quoting a replacement accessory or component.

Required procedure

Provide the product code, serial number if present, and the part required. Do not order a visually similar part without confirmation. Installation guidance is limited to the approved instructions for that product.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Provide the product code, serial number if present, and the part required. Do not order a visually similar part without confirmation. Installation guidance is limited to the approved instructions for that product.
Example	Two lamps use similar-looking adapters with different specifications. Support checks the exact lamp model before recommending an adapter.
Practice question	How can I find a compatible spare part?

POLICY P042 | Policy and eligibility

Support opening hours

Scope and rule

Customer support is available Monday to Friday from 9 AM to 6 PM India Standard Time, excluding listed shop holidays.

Terms and conditions

• Customer support is available Monday to Friday from 9 AM to 6 PM India Standard Time, excluding listed shop holidays.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P042
Rule	Customer support is available Monday to Friday from 9 AM to 6 PM India Standard Time, excluding listed shop holidays.
Worked example	A customer emails on Saturday evening. The message is queued for the next support business day rather than receiving a guaranteed weekend response.

POLICY P042 | Procedure and case handling

Support opening hours

Scope and rule

Customer support is available Monday to Friday from 9 AM to 6 PM India Standard Time, excluding listed shop holidays.

Required procedure

Messages received outside opening hours enter the next available business-day queue. Include the order number and a concise description in the first message. A delivery carrier may operate on a different schedule.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Messages received outside opening hours enter the next available business-day queue. Include the order number and a concise description in the first message. A delivery carrier may operate on a different schedule.
Example	A customer emails on Saturday evening. The message is queued for the next support business day rather than receiving a guaranteed weekend response.
Practice question	When is customer support available?

POLICY P043 | Policy and eligibility

Support response target

Scope and rule

The support team aims to send an initial response within 1 business day. This is an acknowledgment target, not a guarantee that the issue is resolved in that time.

Terms and conditions

• The support team aims to send an initial response within 1 business day. This is an acknowledgment target, not a guarantee that the issue is resolved in that time.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P043
Rule	The support team aims to send an initial response within 1 business day. This is an acknowledgment target, not a guarantee that the issue is resolved in that time.
Worked example	Support acknowledges a missing parcel within one business day, then waits for the carrier's investigation before giving a final decision.

POLICY P043 | Procedure and case handling

Support response target

Scope and rule

The support team aims to send an initial response within 1 business day. This is an acknowledgment target, not a guarantee that the issue is resolved in that time.

Required procedure

Use one support ticket per issue and reply in the same thread. Include requested evidence to reduce follow-up messages. Complex carrier or payment investigations can require additional time after the first response.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Use one support ticket per issue and reply in the same thread. Include requested evidence to reduce follow-up messages. Complex carrier or payment investigations can require additional time after the first response.
Example	Support acknowledges a missing parcel within one business day, then waits for the carrier's investigation before giving a final decision.
Practice question	Does the first-response target mean my problem will be resolved that day?

POLICY P044 | Policy and eligibility

Escalating a complaint

Scope and rule

A customer may request a supervisor review after receiving the first support decision. The review target is 3 business days after all requested evidence is available.

Terms and conditions

• A customer may request a supervisor review after receiving the first support decision. The review target is 3 business days after all requested evidence is available.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P044
Rule	A customer may request a supervisor review after receiving the first support decision. The review target is 3 business days after all requested evidence is available.
Worked example	A customer disagrees with a return assessment and supplies a missing photograph. The supervisor's review clock starts after the evidence is complete.

POLICY P044 | Procedure and case handling

Escalating a complaint

Scope and rule

A customer may request a supervisor review after receiving the first support decision. The review target is 3 business days after all requested evidence is available.

Required procedure

Quote the existing ticket number and explain the disputed point. Include new evidence rather than opening duplicate tickets. The supervisor reviews the recorded facts and communicates the outcome in the same case thread.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Quote the existing ticket number and explain the disputed point. Include new evidence rather than opening duplicate tickets. The supervisor reviews the recorded facts and communicates the outcome in the same case thread.
Example	A customer disagrees with a return assessment and supplies a missing photograph. The supervisor's review clock starts after the evidence is complete.
Practice question	How long does a supervisor review normally take?

POLICY P045 | Policy and eligibility

Accessible shopping support

Scope and rule

Customers who need help using the website may request an assisted shopping conversation through support. Staff can explain navigation and product information.

Terms and conditions

• Customers who need help using the website may request an assisted shopping conversation through support. Staff can explain navigation and product information.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P045
Rule	Customers who need help using the website may request an assisted shopping conversation through support. Staff can explain navigation and product information.
Worked example	A customer has difficulty locating a size guide with a screen reader. Support explains where the information is available and reads the relevant measurements.

POLICY P045 | Procedure and case handling

Accessible shopping support

Scope and rule

Customers who need help using the website may request an assisted shopping conversation through support. Staff can explain navigation and product information.

Required procedure

Describe the access difficulty and the preferred contact method. Staff do not collect payment passwords or one-time codes. The customer completes payment through the approved checkout or payment provider.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Describe the access difficulty and the preferred contact method. Staff do not collect payment passwords or one-time codes. The customer completes payment through the approved checkout or payment provider.
Example	A customer has difficulty locating a size guide with a screen reader. Support explains where the information is available and reads the relevant measurements.
Practice question	Can support help me navigate product information?

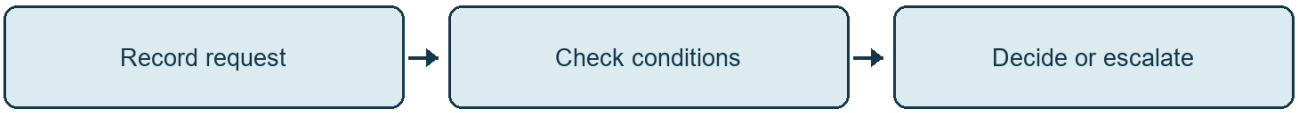

Figure 9: Accessible shopping support workflow. Record the request, check the policy conditions, then decide or escalate. The diagram is a summary; the rules above remain controlling.

POLICY P046 | Policy and eligibility

Account recovery

Scope and rule

Account recovery uses the registered email address and the password-reset process. Support cannot disclose an existing password.

Terms and conditions

• Account recovery uses the registered email address and the password-reset process. Support cannot disclose an existing password.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P046
Rule	Account recovery uses the registered email address and the password-reset process. Support cannot disclose an existing password.
Worked example	A customer forgets a password. Support directs the customer to reset it instead of asking for or revealing the old password.

POLICY P046 | Procedure and case handling

Account recovery

Scope and rule

Account recovery uses the registered email address and the password-reset process. Support cannot disclose an existing password.

Required procedure

Request a reset link and check the spam folder if it does not arrive. If access to the registered email is lost, contact support for account-ownership review. Do not share a reset link with another person.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Request a reset link and check the spam folder if it does not arrive. If access to the registered email is lost, contact support for account-ownership review. Do not share a reset link with another person.
Example	A customer forgets a password. Support directs the customer to reset it instead of asking for or revealing the old password.
Practice question	Will support tell me my existing password?

POLICY P047 | Policy and eligibility

Changing contact details

Scope and rule

Changes to the registered email or mobile number may require verification. Account changes do not automatically alter contact details on dispatched orders.

Terms and conditions

• Changes to the registered email or mobile number may require verification. Account changes do not automatically alter contact details on dispatched orders.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P047
Rule	Changes to the registered email or mobile number may require verification. Account changes do not automatically alter contact details on dispatched orders.
Worked example	A customer changes their mobile number in the account while a parcel is in transit. Support checks whether the carrier can also update its contact record.

POLICY P047 | Procedure and case handling

Changing contact details

Scope and rule

Changes to the registered email or mobile number may require verification. Account changes do not automatically alter contact details on dispatched orders.

Required procedure

Update the account profile and complete the requested verification. For an active shipment, contact support separately and supply its order number. Carrier contact details can remain unchanged if the shipment cannot be edited.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Update the account profile and complete the requested verification. For an active shipment, contact support separately and supply its order number. Carrier contact details can remain unchanged if the shipment cannot be edited.
Example	A customer changes their mobile number in the account while a parcel is in transit. Support checks whether the carrier can also update its contact record.
Practice question	Does changing my account phone number update an active shipment?

POLICY P048 | Policy and eligibility

Privacy requests

Scope and rule

Customers may submit a request to access or delete their account information through support. Identity verification is required before a request is processed.

Terms and conditions

• Customers may submit a request to access or delete their account information through support. Identity verification is required before a request is processed.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P048
Rule	Customers may submit a request to access or delete their account information through support. Identity verification is required before a request is processed.
Worked example	A customer asks to delete an account. Support verifies the requester and explains the handling of account data separately from retained transaction records.

POLICY P048 | Procedure and case handling

Privacy requests

Scope and rule

Customers may submit a request to access or delete their account information through support. Identity verification is required before a request is processed.

Required procedure

State the request clearly and use the registered contact address where possible. Support explains which records can be removed and which transaction records may need to be retained under applicable obligations. Do not send unnecessary identity documents.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	State the request clearly and use the registered contact address where possible. Support explains which records can be removed and which transaction records may need to be retained under applicable obligations. Do not send unnecessary identity documents.
Example	A customer asks to delete an account. Support verifies the requester and explains the handling of account data separately from retained transaction records.
Practice question	What happens before an account-data deletion request is processed?

POLICY P049 | Policy and eligibility

Product reviews

Scope and rule

Reviews should describe a genuine product experience and must not include private contact details, payment information, or abusive content.

Terms and conditions

• Reviews should describe a genuine product experience and must not include private contact details, payment information, or abusive content.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P049
Rule	Reviews should describe a genuine product experience and must not include private contact details, payment information, or abusive content.
Worked example	A customer posts useful criticism but includes a phone number. Moderation removes the private detail or requests a revised submission.

POLICY P049 | Procedure and case handling

Product reviews

Scope and rule

Reviews should describe a genuine product experience and must not include private contact details, payment information, or abusive content.

Required procedure

Use the review form associated with the product and keep order disputes in the support channel. Reviews may be moderated for content-rule violations. A critical opinion is not removed solely because it is negative.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	Use the review form associated with the product and keep order disputes in the support channel. Reviews may be moderated for content-rule violations. A critical opinion is not removed solely because it is negative.
Example	A customer posts useful criticism but includes a phone number. Moderation removes the private detail or requests a revised submission.
Practice question	Can a review include my phone number?

POLICY P050 | Policy and eligibility

Holiday service calendar

Scope and rule

The fictional shop closes support and dispatch operations on 1 January, 15 August, and 2 October. These dates do not count as shop business days.

Terms and conditions

• The fictional shop closes support and dispatch operations on 1 January, 15 August, and 2 October. These dates do not count as shop business days.

• Apply this rule to the stated situation only; do not infer approval for other cases.

• Keep the original purchase or service record so the stated dates and conditions can be verified.

Reference table

Field	Policy requirement
Policy code	P050
Rule	The fictional shop closes support and dispatch operations on 1 January, 15 August, and 2 October. These dates do not count as shop business days.
Worked example	A two-business-day support process crosses a listed shop holiday. The closed date is skipped when calculating the target completion day.

POLICY P050 | Procedure and case handling

Holiday service calendar

Scope and rule

The fictional shop closes support and dispatch operations on 1 January, 15 August, and 2 October. These dates do not count as shop business days.

Required procedure

When estimating a dispatch or support target, exclude weekends and these listed closures. Carrier and bank holidays can differ. Recalculate the estimate if the relevant external provider has an additional non-working day.

Conditions for handling

• Record the policy code, request date, and customer-provided evidence.

• Check all explicit deadlines and exceptions before deciding the outcome.

• If the policy does not specify a requested detail, escalate rather than invent a rule.

Reference table

Stage	Action or evidence
Assessment	When estimating a dispatch or support target, exclude weekends and these listed closures. Carrier and bank holidays can differ. Recalculate the estimate if the relevant external provider has an additional non-working day.
Example	A two-business-day support process crosses a listed shop holiday. The closed date is skipped when calculating the target completion day.
Practice question	Which dates are excluded from the shop's business-day calendar?

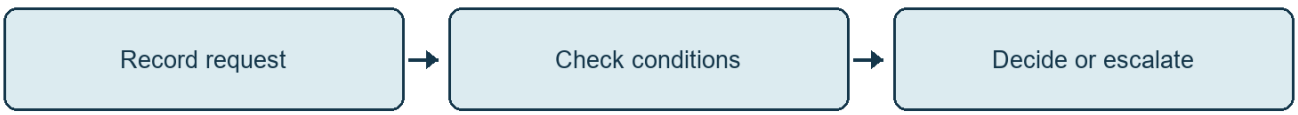

Figure 10: Holiday service calendar workflow. Record the request, check the policy conditions, then decide or escalate. The diagram is a summary; the rules above remain controlling.
